Public Libraries

Tell City-Perry County Library

Tell City's first library was organized in 1893 by a group of 30 residents under the name of the Tell City Library Association. Each member donated \$3 for the initial purchase of library books, which were kept at Schreiber's Drug Store and circulated to readers.

This subscription library was discontinued in 1905 when the city council voted a tax to fund establishment of a public library. The school board was in charge of the library, which operated out of a room in City Hall. In time, the need for a separate building became apparent and, in 1916, the school board secured a \$10,000 grant from the Carnegie Corp.

A new library was built on a lot furnished by the city at Ninth and Franklin streets and opened to the public in 1917. A major addition facing Franklin Street doubled the size of the library in 1967. In 1982, a gift from the L.R. Chapman estate made possible the extensive remodeling of the original Carnegie building. In 1997, the Tell City Public Library merged with the Perry County Contractual Public Library, which had operated a bookmobile serving Perry and Spencer counties since the early 1960s. The bookmobile has since served Perry County exclusively, with more frequent stops and additional locations served within Tell City.

By 2000, library services and collections had expanded to the point where more space and improved access were greatly needed. Community Foundation and Build Indiana grants and a donation of land enabled plans to be drawn for a new library building at 2328 Tell St.

Construction proceeded after the issuance of bonds in late 2001 and the new library opened in August 2002. The 15,240-square-foot library features a computer lab with 16 public computers offering Internet access; a genealogy room featuring family and local histories and a new online genealogy database, Tell City High School yearbooks, an obituary file, a vertical file, three microfilm reader-printers and an extensive microfilm collection; a children's room and separate story-hour

Completed in 2002, the new Tell City-Perry County Public Library is home to a growing number of activities.

area; and a public meeting room with kitchen facilities.

A 5,152-square-foot lower level houses a garage, office and storage area for the Perry County Bookmobile. Ample parking is available adjacent to the library building.

The library and Perry County Bookmobile offer a collection of 60,000 volumes, over 150 magazine and newspaper subscriptions, and 1,500 books-on-tape.

Special collections include reference and large-print materials. Additional audio-visual materials include nearly 1,500 videos and a growing collection of digital video discs and books on compact disc. Audio-visual equipment, including overhead and slide projectors, may be borrowed free of charge by local organizations. Interlibrary loan service is available to patrons through a statewide courier service.

The Children and Young Adult's Department offers a full range of materials and services for pre-school through junior-high ages. Preregistration is required for story hour programs scheduled year-round for children ages 3 to 5. Summer programs are offered for children of preschool and elementary age. Library tours and programs are available for groups by appointment.

The Perry County Bookmobile provides a collection of nearly 4,000

items, including hardback, paperback and audio books, and magazines to nursing homes, day care centers, school, and rural communities throughout Perry County on a three-week rotating schedule.

Since 1989, the Friends of the Library organization has sponsored book sales, author visits and other cultural events throughout the year. New members are welcome.

Membership applications are available at the library and on the library's Web site at www.psci.net/~tcpublib. The Web site also features information about current library services and programs and an online public access catalog.

Current library hours are 9 a.m. to 8 p.m. Monday, Tuesday and Wednesday; 9 a.m. to 5:30 p.m. Thursday and Friday and 9 a.m. to 4:30 p.m. Saturday.

Cannelton Public Library

Located at 210 South Eighth St., the Cannelton Public Library's new building was dedicated in October 1995. Funded with the help of a \$500,000 state grant, the full-service library features a separate children's room, a large periodicals section and an Indiana

Public Libraries

■ Continued from page 55

Heritage Room of historical offerings.

The Heritage Room contains an assortment of books by and about people from Cannelton, Perry County and Indiana. Among the collections are Cannelton High School yearbooks, biographies and phonograph records.

The library has the latest fiction plus many older volumes and non-fiction for adults and children. There also is an

assortment of magazines and videocassette tapes.

The library has several historical items pertinent to Cannelton and Perry County on display.

The library now offers four computers with access to the Internet.

Any Cannelton resident may obtain a library card by filling out a membership application and paying \$1. Children under 18 need to have a parent

or guardian apply in person for them.

Hours are 2 to 7 p.m. Monday, Wednesday and Thursday; 9 to 11 a.m. Tuesday and 2 to 5 p.m. Friday and Saturday. The library is closed on Sundays. The library's phone number is 547-6028 and the fax number is 547-8590. The library's fax machine is available for public use. Staffing the library are Sally Walker, librarian, Debbie Vowles and Irene Lawalin.

Senior Services

■ Continued from page 57

Anyone over 50 years can be a member. Activities include bingo games the first Monday of the month, card playing almost anytime, dancing with live music every Saturday night 7:30 to 10:30 p.m. and monthly birthday parties.

Retired and Senior Volunteer Program

Lincoln Hills Development Corp.,
302 Main St., Tell City, IN 47586.
Phone 547-3435.

The Retired and Senior Volunteer Program identifies meaningful volunteer opportunities for people age 55 and older.

The program seeks to capture the experience, knowledge and skills of older Americans. It is designed to provide seniors the opportunity to find personal satisfaction for themselves and to apply their skills, experience, time and motivation to the communities in which they reside.

It seeks to provide a vehicle through

which older people can actively participate in community life through volunteer service.

The success of the program is more appropriately assessed in terms of its impact on the volunteers themselves. The program recruits seniors and matches them to jobs in volunteer stations.

The types of assignments the volunteers work on vary. The program is sponsored locally by LHDC and includes the service area of Crawford, Perry and Spencer counties.

Transportation

Perry County is served by three major transportation hubs, including Owensboro and Louisville in Kentucky and Evansville in Indiana.

TECHNICAL REPORT

This technical report has been developed in support of a petition for rulemaking seeking the reallocation of channel WTCJ-FM's 289A from Tell City, In to Cannelton, In and the simultaneous reallocation of WLME-FM's 275C3 from Cannelton, IN to Tell City, IN.

Community	Existing	Proposed	Coordinates
Cannelton, IN	275C3	289A	N37-48-13 W86-48-57 (13.48 KM @207.7 Deg T)
Tell City, IN	289A	275C3	N37-50-28 W86-35-50 (20.25 km @112.5 Deg T)

I. Allocation Analyses:

An allocation study is included as Exhibit E-1A demonstrating that the proposed allotment of WTCJ-FM's 289A to Cannelton, IN fully meets Section 73.207 separation requirements. Exhibit E-1B demonstrates that the proposed reallocation will provide a 70 dBu to the entire community of Cannelton. Exhibit E-1C demonstrates line of sight to Cannelton from the proposed allocation point utilizing a 150 meter tower. Exhibit E-1D shows that the loss area resulting from the reallocation of WTCJ-FM's 289A receives five or more fulltime FM aural services.

Charles M. Anderson and Associates

Broadcast Consultants
1519 Euclid Avenue
Bowling Green, KY 42103

Phone 270-782-0246
Fax 270-793-9129
Cell 270-535-4432

The WTCJFM reallocation results in a gain in population served of 58,859 compared to the loss area's population of 6,242. This net gain of 52,617 is further reduced by the simultaneous WLME reallocation net loss of population of 3,397. This results in a net gain in population for the two reallocations of 49,220.

The proposed WLME reallocation to Tell city meets Section 73.207 separation requirements as demonstrated by E-2A; provides 70 dBu service to all of Tell City as demonstrated by E-2B; and, provides line of sight as indicated by E-2C. The loss area identified in E-2D is 535 sq km including a population of 10,004. However, E-2D also shows that the loss area is well served receiving five (5) or more fulltime FM services.

All allocation exhibits were prepared using V-Soft's FMCONT, PROBE III and the 30 second NGDC terrain database. Existing services were plotted using uniform maximum class 60 dBu contours for all class of station except Class C for which actual licensed contours were used. The existing WTCJ-FM directional, licensed contour was used since it is impossible to achieve a uniform circular contour from the short spaced licensed site. Use of a uniform contour would not result in any loss area not presently served by five or more fulltime aural signals.

III. Conclusion:

It is concluded that the reallocation of WTCJ-FM's 289A to Cannelton, IN and WLME(FM)'s 275C3 to Tell City, IN will result in a net population gain of

49,222 (+99.5% compared to the existing population served of 40,412). The proposal is in full compliance with the Commission's allocation rules and policies.
